PROJECT DETAILS:

Title- Enhancing Organization Security using Attribute-Based Encryption for Data Sharing

Description:

In this system our work is based on Attribute based Encryption. It is one of the techniques that are more suitable for storing data with encryption which achieves a fine-grained data access control. We provide access policy to share the data between users means based on that access policy user have the privilege to access the data. The proposed scheme solves the key escrow problem which depends on attribute based encryption technique for the shared data.
